Non-compliance by the beneficiaries with the obligations assumed by the non-reimbursable funding agreements entails their obligation to partially or fully return the amounts received, to which is added the legal interest calculated on the amounts granted, in accordance with the provisions of the agreement, under the conditions of the law.
- 11.6. Following the verification of the supporting documents and the activity report, the funding authority has the obligation to recover from the beneficiary the funds used by him to cover expenses other than those expected to be eligible.
- 11.7. The period required by the funding authority for **checking and approving the activity reports** and for determining the amounts to be settled is maximum **30 working days**, an interval that must be taken into account by the beneficiary in planning activities.
- 11.8. The expenses incurred in the mobility framework are partially or entirely ineligible in the conditions where the activities or the result indicators are partially fulfilled or not fulfilled, thus the financial correction applied is proportional to the degree of non-fulfilment of the activities or, as the case may be, the result indicators.
- 11.9. Financial corrections do not apply in situations of force majeure, which can be invoked and proven according to the funding agreement.

- 11.10. The final amount granted as non-reimbursable funding is determined according to the result of the analysis of the activity report and the total real eligible expenses of the mobility, based on the supporting documents submitted by the beneficiary.
- 11.11. Following the evaluation and approval of the activity report, the funding authority makes the decision to grant full or partial funding, and will recover from the beneficiary the funds used to cover expenses other than those provided for in the agreement, if applicable.
